

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

December 1-15, 2006

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **December 1-15, 2006.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CD must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2005**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<u>Documents Received on Friday, December 01, 2006</u>			
2006124002	<p>Environmental Assessment for Levee Repair of 14 Winter 2006 Critical Sites, Sacramento River Bank Protection Project U.S. Army Corps of Engineers Isleton--Yolo, Sacramento, Sutter, Solano The U.S. Army Corps of Engineers (Corps) and the State of California Reclamation Board (Reclamation Board) propose to implement bank protection measures to prevent ongoing streambank erosion at 14 critically eroding sites along the Sacramento River and Steamboat Slough. The 14 erosion sites are located from the most downstream site near the town of Isleton in Sacramento County, to the most upstream site northeast of the town of Woodland also in Sacramento County.</p>	EA	12/15/2006
2004082066	<p>2035 Stockton General Plan and Infrastructure Studies Project Stockton, City of Stockton--San Joaquin The proposed project represents an update to the City's existing General Plan (1990) and the land use designations identified under the Preferred Land Use Alternative. The City is considering expansions to both its existing Urban Services Boundary (USB) and Sphere of Influence (SOI) boundary in order to accommodate future population growth anticipated under the Preferred Land Use Alternative. In addition, water, wastewater and storm drainage utility master plans are being prepared to identify the necessary infrastructure requirements needed to support growth and development proposed under the Preferred Land Use Alternative. The Draft General Plan Land Use Diagram (Preferred Land Use Alternative) boundaries generally extend to Armstrong Road and Live Oak Road on the north, Jack Tone Road on the east, Roth Road on the south and the San Joaquin River, Burns Cutoff, Stockton Deep Water Channel, Fourteen Mile Slough, and Bishop Cut on the west.</p>	EIR	01/29/2007
2006061078	<p>San Gabriel Center Project San Gabriel, City of San Gabriel--Los Angeles The site is currently developed with a mix of commercial uses totaling approximately 37,000 square feet and one single-family dwelling unit. The project proposes to remove the on-site uses and construct a mixed-use development with approximately 18,000 square feet of commercial space and 159 dwelling units.</p> <p>The proposed project would be a four story mixed-use development, with three floors of residential uses above one floor of street level retail and restaurant uses. Additionally, there would be two levels of subterranean parking for the residential uses and one level at-grade parking for the commercial uses. The property is designated as General Commercial in the General Plan, and zoned Retail Commercial (C-1). The proposed project would require a Zone Change to a Planned Development Overlay Zone, a Conditional Use Permit mixed-use on the property, and a Tentative Tract Map to subdivide airspace for 159 residential condominium units.</p>	EIR	01/16/2007

2002022045	The Residences West, Residences East and The Retreat at Rancho Murieta Sacramento County Rancho Murieta--Sacramento Three projects: two separate maps (Residences West, Residences East) of 99 residential lots each, and a tentative map (Retreat) of 84 residential lots.	FIN	
2006032069	Dick Cook Bridge Replacement Projects Placer County Planning Department Loomis--Placer Proposed to replace and widen a portion of the bridge to allow for increased access to the adjacent rural residential area.	MND	01/02/2007
2006121006	Wall Road Condominium Site Plan Imperial, City of --Imperial The proposed project consists of the development of a condominium complex with six two-story buildings and a total of 48 proposed units on approximately 3.1 acres. The project also consists of the construction of nine retention basins, one of which will also be utilized as a children's play/picnic area, a below-ground pool, and 40 storage boxes for use by residents.	MND	01/02/2007
2006121034	Tentative Tract 6716 McFarland, City of McFarland--Kern The project requires subdivision on the 39.9-acre parcel into 180 individual lots. It will include the development of approximately 180 single-family residential units.	MND	01/05/2007
2006122002	Heritage Church (PMPA T20051104) Placer County Planning Department Lincoln--Placer Proposed to renovate the existing 2,500 square-foot office, a 900-seat multi-use sanctuary, parking, and landscaping; and to construct a 10,000 square-foot classroom and office space.	MND	01/02/2007
2006121001	Pasadena Groundwater Storage Program Pasadena Water and Power Pasadena, Arcadia, La Canada-Flintridge, Monrovia, ...--Los Angeles The proposed project is a conjunctive use program between Metropolitan Water District of Southern California (MWD), PWP, and FMWD to improve the reliability of water supply to the City of Pasadena and surrounding water agencies and reduce the region's independence on imported MWD water in the Pasadena subarea of the Raymond Basin when imported supplies are limited due to a drought or emergency. Capital improvements to be constructed under the proposed project consist of five major components: 1) construction of three ASR wells, 2) construction of a groundwater nitrate treatment facility, 3) construction of a new or upgraded interconnection between the PWP and FMWD water distribution systems, 4) construction of a groundwater perchlorate treatment facility, and 5) construction of a collector pipeline between seven existing wells in the PWP service area. 2006121003	EA AS 01 (Wastewater Treatment Plant) Kern County Planning Department --Kern A conditional use permit to allow a wastewater treatment plant.	Neg	01/02/2007
2006121004	Arvin-Edison South Canal Improvement Project Arvin-Edison Water Storage District Arvin--Kern The project would modify the existing South Canal system generally between the Tejon Spreading Works and the Intertie Pumping Plant, and amend the administration of the existing AEWSD-Metropolitan Program to allow for more cost effective program operations.	Neg	01/02/2007
2006121007	Barstow Sanitary Landfill Solid Waste Facility Permit Revision San Bernardino County Land Use Services Department Barstow--San Bernardino The County of San Bernardino Solid Waste Management Division (SWMD) is requesting a revision to the Barstow Sanitary Landfill facility operation and Solid Waste Facility Permit (SWFP) for an increase in the facility's design capacity and site life in compliance with the California Code of Regulations (CCR), Title 27.	Neg	01/02/2007
2006122003	SR-53 Intersection Improvement Project Caltrans #3 Clearlake--Lake Caltrans proposes to perform various safety improvements at the intersection of SR-53 and 40th St./Lakeshore Avenue in Lake County (KP 4.75)(PM 2.95). The current intersection is signalized but does not provide a protected left turn lane. The project will require earthwork, pavement widening, sidewalks, digouts, cold planning, repaving, restriping, and drainage work.	Neg	01/02/2007
2006122004	Shuttleworth Special Permit (SP-06-14) for Major Vegetation Removal (< 3 acre conversion) in the Coastal Zone Humboldt County Community Development Services --Humboldt A Special Permit for major vegetation removal in the Coastal Zone. The applicant proposes to construct a residence built to a maximum of 2,018 square feet with an attached garage built to a maximum of 588 square feet. A covered porch and decking are also proposed. The parcel is just over 20 acres and 2.8 acres (approximately 150 Sitka spruce) are proposed to be removed under a Less Than 3-Acre Conversion Exemption from CDF in order to clear for the home site. This parcel lies in an area not certified by the Coastal Commission, thus the Coastal Development Permit will be issued by that agency. Water and sewer service will be developed on site. Minimal grading is anticipated.	Neg	01/02/2007
2006122005	Alum Rock Water Line Relocation San Jose, City of San Jose--Santa Clara The project consists of installation of a 4,600 foot water line within Alum Rock Park, required to replace a temporary line in another location in the park. The proposed water line consists of four-inch PVC and 10-inch ductile iron pipes located beneath portions of a hiking trail and park road.	Neg	01/02/2007

2006122007	<p>Cordes Vineyard Conversion Project #03522-ECPA Napa County Conservation Development & Planning Department Yountville--Napa</p> <p>The proposed project includes earthmoving, clearing of chaparral and installation and maintenance of erosion control measures associated with the development of + 24 acres of new vineyard (21.4 net vine acres), located within a 40-acre parcel located on the west side of Debb-Knief Road (private road) approximately one and three-quarter miles north of Soda Canyon Road, approximately six miles north of its intersection with Silverado Trail. Access to the project site would be from these roads. The parcel is located in an Agricultural Watershed (AW) zoning district, with a Napa County General Plan designation of Agriculture, Watershed and Open Space. Rock spoils created from grading would be used on the main access road (Debb-Knief Road) within the parcel. Existing slopes range from 4% to 16%, with an average of 10% slope. Water for the project would come from an existing well at the northeast corner of the parcel. An erosion control plan (#03522-ECPA) has been prepared. Erosion control measures include straw mulch, straw wattles, straw bale sediment barriers and a no-till cover crop with 80% coverage. Deer fencing would be placed only around vineyard blocks. Chemicals used for fertilizing and eradicating of weeds, pests and fungi would be kept in an existing shed located off-site. No future projects are anticipated for this parcel at this time.</p>	Neg	01/02/2007
2006122008	<p>91 Lozoya Way, Minor Subdivision 06-979 Oakley, City of Oakley--Contra Costa</p> <p>The proposed project includes the subdivision of a 3.46-acre parcel into three lots. The proposed project would include the future development of two single-family units, two water supply wells, and two septic tanks with associated leach fields. The site consists of one parcel that is identified by Contra Costa County as APN 033-130-032. The proposed project entitlements include a Vesting Tentative Map approval and a rezone from General Agricultural (A-2) to Single-Family Residential (R-40).</p>	Neg	01/02/2007
2000012122	<p>Rezoning to Public Agency, Bridgeport & Walker Landfills Mono County Mono County Planning Department Mono City--Mono</p> <p>The project is an addendum to the MND prepared in April 2000 for the rezoning and permitting of the Bridgeport and Walker landfills. The purpose of this project is to incorporate more accurate tonnage and traffic information recorded at the Walker Landfill since the Negative Declaration was approved. The project does not involve any change in use of the Walker Landfill, only a change in the accuracy of recording that use. There were no potentially significant impacts identified in the previous Negative Declaration and the severity of impacts identified as less than significant with mitigation will not be affected by the revised data. The project will be used to support the issuance of a revised Solid Waste Facility Permit for the Walker Landfill to more accurately reflect existing site operating conditions.</p>	NOD

	amount of tax increments that can be allocated to the Agency from the Merged Project Areas; (c) combine and increase the bonded debt limit that can be outstanding at any one time for all the Merged Project Areas; (d) extend the plan effectiveness of the Marina Vista Project; (e) extend the period for receipt of tax increment and repayment of debt for the Marina Vista Project; (f) re-establish the Agency's authority to acquire non-residential property through eminent domain; and (g) combine the three existing Redevelopment Plans into a single document.		
2004061105	<p>Santa Barbara Cottage Hospital Foundation Workforce Housing Project Santa Barbara, City of Santa Barbara--Santa Barbara</p> <p>The proposed project would remove the existing St. Francis Hospital complex, including the main hospital, convent, central plant, and other ancillary structures, totaling approximately 189,000 square feet, and replace them with 115 residential condominiums that would cover 5.94 acres of the 7.39 acre site. Within the remaining 1.45 acres, the existing elderly care facility, Villa Riviera, would remain, but the parcel containing it would be adjusted to a size of approximately 31,500 square feet. The remaining lands zoned R-2, Two Family Residential, would be re-configured into three lots of approximately 10,500 square feet each and the two existing residences on these R-2 parcels would be demolished. The R-2 lots have the potential for two residences on each lot, for a total of six residences, no development is proposed at this time. Parking for the project would be accordance with zoning parking requirements. A total of 11 spaces would continue to be provided for Villa Riviera and 254 parking spaces for the 115 proposed condominium units. Vehicular access to the three reconfigured R-2 parcels would be directly from Grand Avenue. Primary vehicular access to Villa Riviera and to guest parking for this facility would continue to be provided from an existing private driveway connecting to the terminus of Arrellaga Street; existing secondary access to the facility from Grand Avenue would also be maintained. Internal vehicular circulation for the new residential development would be provided by a system of private drives and public roads connecting to Micheltorena, California and Arrellaga Streets.</p>	NOD

	and an additional 20 accent trees on the 4.5-acre site located at 75 Willow Road.		
2006101155	Imperial Irrigation District Equitable Distribution Plan Imperial Irrigation District El Centro, Calexico, Brawley, Imperial Beach--Imperial Pursuant to the Quantification Settlement Agreement (QSA) signed in October 2003, IID agreed to limit its annual diversions of Colorado River water to 3.1 million acre-feet per year. As a result of this cap on diversions, the demand for water by users within the District may exceed the supply available to the District, referred to herein as a "supply/demand imbalance" (SDI). IID has determined that a plan must be adopted to equitably distribute the available water supplies amongst the users in the event that IID determines that an SDI is likely to occur in any individual year. The equitable distribution of water is required pursuant to California Water Code Section 22252.	NOD	
	The Equitable Distribution Plan, while required by State law, also eases the burden on water users by providing agricultural users with certainty regarding the method of water allocation in the event of an SDI so they can plan appropriately and minimize economic effects of a reduction in their water supply. In the event of an SDI, the proposed Equitable Distribution Plan would allocate the available water supply to water user accounts based on water use types.		
2006102044	Palmer Drive Water Tank North Marin Water District Novato--Marin Construct a 300,000,000 gallon above ground welded steel water storage tank in the South Novato 1 Service Area in Novato.	NOD

<u>Documents Received on Monday, December 04, 2006</u>			
2006022091	Folsom Dam Safety and Flood Damage Reduction Reclamation Board Folsom--Sacramento, El Dorado, Placer As a part of their responsibilities, Reclamation and the Corps have determined that the Folsom Facilities require structural improvements to increase overall public safety by improving the facilities' ability to reduce flood damages and addressing dam safety issues posed by hydrologic (flood), seismic (earthquake), and static (seepage) events. These events have a low probability of occurrence in a given year, however due to the large population downstream of Folsom Dam, modifying the facilities is prudent and required to improve public safety.	EIR	01/17/2007
2005071080	The Shores Project, Project No. R2005-00234 Los Angeles County Department of Regional Planning --Los Angeles An application for a Coastal Development Permit to authorize demolition of the existing 202-unit one-and two-bedroom apartment complex and subsequent construction of a 544-unit apartment complex in twelve 75-foot high buildings (five stories of apartments over two levels of parking) with architectural features extending approximately 25 feet above the roofline). A total of 1,114 parking spaces will be provided within parking structures on-site (954-residents, 136-guest parking). The project also includes a Parking Permit request to authorize installation of residential compact parking as well as a Variance to authorize modification of signage standards to allow more signage than allowed by the Zoning Code.	FIN	
2005111118	South Pointe West Specific Plan Diamond Bar, City of Diamond Bar--Los Angeles The project contains a number of related elements, including the adoption of a proposed specific plan authorizing the development of 99 dwelling units within the approximately 34.67-acre project boundaries, the adoption of a proposed vesting tentative tract map (Vesting Tentative Tract Map No. 063623), the subsequent development and occupancy of the tract map area in accordance with the final subdivision map and the policies of the specific plan, the development and use of a new approximately 4.68 gross acre neighborhood park, and the utilization of an approximately 7.45 gross acre stockpile (borrow) site to be used as a potential depository for excess earth material exported from the tract map area.	FIN	
2006121008	West Grand Avenue Storm Drain Improvement and Meadow Creek/West Grand Avenue Bridge Replacement Grover Beach, City of Grover Beach--San Luis Obispo Storm Drain: Installation of 5,885 of new storm lines, ranging from 18 to 54 inch diameter, along West Grand Avenue from North 12th Street westerly to and including Meadow Creek. The intent of the project is to improve the capacity of the existing storm drainage system facilities along West Grand Avenue, and to improve run-off water quality. Bridge Replacement: Replace the current two bridge structure for the West Grand Avenue crossing of Meadow Creek, westerly of State Highway 1. The easterly two-lane bridge structure is currently decommissioned due to structural deficiencies. This portion of West Grand Avenue and the bridge serve as a major entrance to the beach and to the Oceano Dunes State Recreation Area.	MND	01/02/2007

	existing conveyance and recharge facilities and involve no construction or expansion of facilities. Potential effects on the CVWD and DWA service areas, the Sacramento-San Joaquin Delta, Colorado River and SWP of the water transfer were fully addressed in a 2002 Program EIR for the Coachella Valley Water Management Plan and State Water Project Entitlement Transfer. Potential effects on BMWD were addressed in the February 1996 Final EIR for Transfer of Water Entitlements from Berrenda Mesa Water District for Use in Dougherty Valley Area and the 2002 Addendum to that EIR and updated for this project. This Subsequent EIR tiers off those documents. BMWD, DWA, Kern County Water Agency, and the California Department of Water Resources are responsible agencies.		
1998121039	Proposed Standardized Permit for Filter Recycling Services (FRS) Toxic Substances Control, Department of Rialto--San Bernardino FRS accepts multiple waste streams (mostly contaminated containers of various types) and uses shredder/separator units to generate metallic material for recovery at an offsite smelter. The separation units also generate hazardous waste sludges solutions that are landfilled offsite, hazardous organic liquids that are incinerated offsite, and hazardous aqueous solutions that are treated offsite. FRS requested a change in authorization from Standardized Permit Series B to a Standardized Permit Series A. As a Series B Standardized Permit facility, FRS can treat up to 50,000 gallons of liquid waste and up to 100,000 pounds of non-liquid waste per month. FRS reports that its current treatment throughput of hazardous wastes through the two shredding/separating units is about 1,335 tons per month, and about 4.5 tons of aerosol cans through the aerosol can puncturing units. 2006122015	<p>Galt Wastewater Treatment Plant Outfall and Effluent Flow Meter Project Galt, City of Galt--Sacramento</p> <p>The NPDES Permit for the City's Wastewater Treatment Plant (WWTP) requires installation of an effluent flow meter to accurately measure flows from the WWTP to the discharge point into an unnamed seasonal drainage (approximately 6 feet wide) which flows to Laguna Creek. Currently, two outfalls discharge water from the storage reservoir into the unnamed seasonal drainage channel. One of the outfalls delivers water from the cascade aerator and the other outfall is a drain directly from the storage reservoir when water levels fall below the level of the cascade aerator. An 8-foot separation exists between the two structures. In order to accurately meter the flow from both outfalls, the two pipelines need to be connected at a "T" within a new catch basin structure and a 16" diameter pipeline needs to be extended about 31 feet into the unnamed channel to reduce turbulence at the meter point. The flow meter would be installed about 6' downstream and an elevation head would be constructed on the far side of the flow meter in order to keep the meter constantly full to provide accurate measurements. The pipeline would then extend another 30 feet to its point of final discharge. The project will require filling 0.007 acre of the existing seasonal drainage for the new outfall structure and pipeline base.</p>	MND	01/03/2007
2006121016	<p>Tapia Ranch Project/Project No. 02-196/Tentative Tract Map No. 53822 Los Angeles County Department of Regional Planning Santa Clarita--Los Angeles</p> <p>A project to subdivide the property, which consists of 22 existing parcels, into 405 single-family residential units, 31 street lots, 33 HOA/basin lots, 5 open space lots, one park/recreation lot and two water tank lots. Approximately 308.5 acres out of the total 1,167 acres will be graded. Project is also requesting an Oak Tree Permit to remove up to 27 oak trees. There were 351 oak trees inventoried for this project site, which included 43 heritage oaks. A Conditional Use Permit is also required for development within a hillside management area which will include grading with balance on site, and density control. The site is currently vacant and previously used for limited oil extraction.</p>	NOP	01/03/2007
2006061133	<p>Conditional Use Permit Application No. C-06-136 Fresno, City of Fresno--Fresno</p> <p>Conditional Use Permit Application No. C-06-136 requests authorization to construct and operate a new City Water Well Pump Station No. 348. The proposed facility will pump groundwater into the City's municipal water distribution system and has been configured to use water remediation tools. The facility will be constructed in three phases.</p>	Neg	01/03/2007

The applicant proposes to extend 4 culverts, build 4 bridges and replace on bridge with a quadruple culvert.</p>	NOD	
2006072107	<p>Tyco Electronics Facility - Proposed Remedies for Soil and Groundwater</p> <p>Toxic Substances Control, Department of Menlo Park--San Mateo</p> <p>DTSC is approving the remedies for the on-site soil and groundwater contamination at the Tyco Electronics Corporation (Tyco) located at 300 Constitution Drive in Menlo Park, CA. The remedies are described in the Draft Corrective Measures Study and Implementation Plan for the Tyco facility dated June 2006, and Draft Land Use Covenant Implementation and Enforcement Plan:</p> <ul style="list-style-type: none"> - Installing five new groundwater monitoring wells and abandon one well, according to all appropriate local and state standards including but not limited to the County of San Mateo, California State Department of Water Resources, and the Regional Water Quality Control Board. - Entering a land-use covenant for the entire site with special restrictions for the 11,437 sq. ft. engineered cap area, and conducting annual inspection of the site to ensure the land use remains unchanged. - Conducting periodic groundwater monitoring. Groundwater monitoring will include annual measurements of water level (gauge for depth) to conform flow direction and gradient, and field chemistry testing, including pH, conductivity, salinity, and oxidation-reduction potential. Any field test deviation result that is greater than 50% of the previous sampling event will trigger one round of groundwater analytical sampling and laboratory analysis at that well to determine if the chemical (VOCs and PCBs) concentrations have significantly changed. The new five wells will be sampled and analyzed for VOCs and PCBs annually for the first five years. Then the groundwater will be sampled and analyzed for VOCs and PCBs at a frequency of every 5 years for 20 years from a net work of 45 wells. Out of the 45 wells, 16 wells will be monitored for PCBs for an additional 30 years. 	NOD

2006122020	General Plan Amendment 2006-04 & Rezone 2006-09 - Gomes Transportation Truck Parking Yard Stanislaus County Turlock--Stanislaus The reason for the proposed change is to allow this use, which hauls both ag and non-ag products to remain on the 3 acre portion of this site which has been used as a truck yard for some 30 years. No new construction is planned. If approved, the business, which is about 75% agricultural in nature, could remain on site. The A-2-40 zone does not permit non-ag portions of the business.	CON	12/22/2006
2006122021	Parcel Map Application No. 2006-52 - Sun Dry Products, Inc. Stanislaus County --Stanislaus Project is a re-submittal of Parcel Map No. 2004-13 (SCH# 2004052119) to create a 67 acre property, separating Grover Landscape Services from Sun Dry Products operating on the 252.96 acre remainder. Site is largely developed, including the 67 acres totally devoted to Grover Landscaping. Use of the concrete runway area for storage takes up much of the site.	CON	12/22/2006
2006122022	Use Permit Application No. 2006-37 - Grover Landscape Services Stanislaus County --Stanislaus Project is a 50 acre expansion of an existing 67 acre composting operation (Use Permit No. 98-19) approved in 1999. This expansion would allow use of the concrete runway area for storage of piles of composting materials, beneficial especially in wet weather when compost areas on the current site get muddy. Grinding and screening operations would also move to the runway, allowing better dust control in summer and mud control in winter due to improved conditions for vehicles. There will be an on-site drainage basin. Hours 6 am - 6 pm plus seasonal night shifts.	CON	12/22/2006
2006032138	Oro Bay Specific Plan and Annexation Area Project Oroville, City of Oroville--Butte This project includes an application for the Oro Bay Specific Plan, allowing a mix of various residential densities and housing types combined with various public uses on the 421-acre Specific Plan Area. This project also includes annexation of the Specific Plan area and thirty-one parcels east and southeast of the Specific Plan area (779 acres), including a General Plan Amendment and Pre-zoning.	EIR	01/19/2007
2004061159	Renewable Water Resource Management Plan for the Southern Reaches of the Calleguas Creek Watershed Camrosa County Water District --Ventura The project is an integrated set of facilities to reduce reliance on imported water while improving water quality through the managed transport of salts out of the watershed. Phase 1 project elements include: direct recycling of the Camarillo Sanitary District's effluent, reclamation of brackish groundwater, relocation of an effluent discharge facility, water blending facilities, and associated pipelines and pumping facilities. Future phases include: additional groundwater treatment facilities, exploration of water quality management approaches to Arroyo Conejo, and pumping brackish groundwater to meet salt transport goals. 2005051037	Hollywood/Garfield Mixed Use Development Los Angeles, City of --Los Angeles The proposed project involves the demolition of a vacant commercial building to construct a mixed-use development consisting of 90 residential units and approximately 6,000 square feet of retail development. Parking accommodations include two parking levels (ground level and subterranean) totaling approximately 190 parking spaces. The maximum height of the development would not exceed 60 feet. The project site area is 1.1 acres.	FIN	
2006122023	Laurel Place Subdivision/County File #RZ05-3171 & SD05-8769 Contra Costa County Concord--Contra Costa Applicant proposes to rezone a 3.9 acre site from R-20 (20,000 sq. ft. minimum lot size) to R-15 (15,000 sq. ft. minimum lot size) and subdivide property into 8 single family lots.	MND	01/04/2007
2006122024	Environmental Review #2006-007, County Road 44 Glenn County Public Works and Development Services Agency --Glenn Replace the box culverts at two locations on County Road 44 with new 70-foot wide aluminum arch pipe structures to allow for two 12-foot lanes and minimum 12-foot shoulders. Construction is planned for April. The existing concrete box culverts will be removed and the concrete hauled off-site. Twenty-foot span and 70-foot wide aluminum arch pipe structures with concrete footings and concrete slope collars will be installed. Temporary construction easements of 50 feet by 100 feet and permanent easements of 25 feet by 50 feet will be required on each side of the structures at both sides. The paved roadway will be closed and used for staging and fabrications areas (> 200 feet from channels) for assembling the arch pipe at each location.	MND	01/04/2007
2006121025	24 Hour Fitness Center Vista, City of Vista--San Diego A request for an amendment to a previous Site Development Plan (PC8-150) to develop a 24-Hour Fitness Center building totalling 35,000 square feet, parking areas, and associated improvements on a 4.26-acre site.	NOP	01/04/2007

2006122026	Parcel Map Application No. 2006-54 - Albert & Betty Roen Stanislaus County Waterford--Stanislaus Parcel map to split a 120 acre parcel, used as un-irrigated grazing land, into three 40 acre parcels, consistent with the A-2-40 zone in the area. Two parcels have direct road frontage, the third would be served with access easement on existing farm road.	CON	12/26/2006
2003092002	Empire Ranch Road/Route 50 Interchange Project Folsom, City of Folsom--Sacramento The City of Folsom, Caltrans and the Federal Highway Administration are proposing to construct a new interchange on Route 50 between the East Bidwell Street interchange on the west and the El Dorado Hills Boulevard interchange on the east. The purpose of the project is to improve local and regional circulation. The total estimated capital cost for the interchange is \$17.2 million. The proposed improvements to Route 50 are estimated to cost \$5.3 million. Noise abatement measures have been included for the project and mitigation has been identified for the following resources: hydrology and water quality, transportation and traffic, air quality, biological resources, and hazards and hazardous materials.	EIR	01/22/2007
2003122057	Rio del Oro Specific Plan Rancho Cordova, City of --Sacramento The Rio del Oro project would permit a mixed-use development on approximately 3,828 acres in Rancho Cordova. Elliott Homes is seeking specific development entitlements (e.g., tentative subdivision maps) as part of the project, GenCorp is seeking overall development entitlements, but has not proposed specific development entitlements necessary for immediate or short-term development as part of this proposal. In addition to local development entitlement requests, the project applicants are requesting authorization from U.S. Army Corps of Engineers to place dredged or fill material into waters of the United States. 2005081001	<p>Lotus Ranch El Centro, City of --Imperial</p> <p>The proposed project consists of a residential development about 213 acres including 658 units of single-family residential and 6.7 acres of public park. Approval of annexation to the City of El Centro by LAFCO and approval of a prezone, and Lotus Ranch Tentative Subdivision Map by the City of El Centro would be required to allow development of the proposed project.</p>	EIR	01/22/2007
2006022132	<p>Upper Range Vineyard Project - Rodgers Property Napa County Conservation Development & Planning Department Napa--Napa</p> <p>The Upper Range Vineyard Project - Rodgers Property would involve installing erosion control features and practicing erosion control measures for a new approximately 161- acre vineyard on privately owned properties in Napa County, California. The entire project site is comprised of seven parcels totaling approximately 678 acres. Agricultural uses are within the County's "right to farm" policy. However, because the project would involve earthmoving activities on slopes greater than 5%, approval of the Erosion Control Plan (#02-454=ECPA) by the County of Napa is considered "discretionary". This makes it subject to review under the California Environmental Quality Act (CEQA). The project site is located in the hills between the Silverado Trail and Lake Hennessey, about 2 miles northeast of Rutherford and 13 miles north of the City of Napa. The erosion control measures would be implemented in the proposed vineyard area, which will cover 161 acres (approximately 24 percent of the total 678 acres), while existing vegetation will remain on 517 acres (approximately 76 percent of the 678 acres). The property is currently grazed by cattle, which would continue with the proposed project.</p>	EIR	01/22/2007
2006091107	<p>General Plan Update 2006-2026 Dinuba, City of Dinuba--Tulare</p> <p>The Plan Update will provide direction for development in the City of Dinuba over the next 20 years. The proposed project is located in northwestern Tulare County. The geographic area covered by the project includes the City limits of Dinuba which is generally bounded by Avenue 406 to the south, Avenue 426 to the north, Road 92 to the east and Road 60 to the west, and the Urban Development Boundary, the 20-year development boundary which is generally bounded by Avenue 396 on the south, Road 60 to the west, Road 96 to the east, and Avenue 430 to the north. The project proposes a mix of residential, commercial and industrial land uses.</p>	EIR	01/22/2007
2004091039	<p>Carlsen Estates, Standard Subdivision Vesting Tentative Map Monterey County Planning & Building Inspection Salinas--Monterey</p> <p>38-lot subdivision on 96.37 acres; grading to accommodate infrastructure and building pads; removal of approximately 450 protected oak trees.</p>	FIN

	tanks and installing one 80-foot diameter cone roof tank in the vacated space.		
2006121028	Stagecoach Park Corona, City of Corona--Riverside The proposed project is a 5.7-acre passive park to be located on an 11.88-acre parcel of Corps of Engineers property at the intersection of Stagecoach Drive and Corydon Street, in the northeast portion of the City of Corona. The site is generally located northeast of I-15 and the SR-91 freeway within the Prado Flood Control Basin. A final site plan has not yet been developed. However, the proposed project will provide a 5.7-acre neighborhood park equipped with a variety of recreational facilities including but not limited to a basketball court, a sports field, a walking path, a volleyball court, play equipment, par course stations, and a picnic area equipped with tables and a barbeque. The park will also include restroom facilities and parking for up to 20 vehicles.	MND	01/08/2007
1995013041	Adobe Creek Upper Reach 5 Santa Clara Valley Water District The design for Adobe Creek Upper Reach 5 is a scaled down project (less than one-percent flood protection) and would: 1) restore the creek through the reconstruction and/or repair of the eroded channel; 2) stabilize banks; 3) remove accumulated sediment; 4) and improve the channel conveyance capacity while continuing to allow for overland flows during flood events. The proposed project would address accommodating water that flows under the existing West Edith Avenue Bridge, and overland flows entering the creek downstream of the bridge. The proposed project is a combination of creek channel improvements, and channel bottom and bank erosion repairs.	NOP	01/05/2007

	49 acres of property located west of Blosser Road has been removed from the project area. The specific plan calls for light industrial, research, manufacturing, and commercial land uses around an 18-hole golf course. Additional uses will include retail opportunities and government facilities. Large areas of open space are being reserved for recreational or conservation uses, and a portion of the project area is set aside as a biological preserve.		
2005121093	La Floresta Development Proposal Brea, City of Brea--Orange Proposed development of two non-contiguous sites in the City of Brea for a total of 1,335 dwelling units at densities ranging from 5.0 du/ac to 28.5 du/ac, with commercial, office and recreational uses. Residential mix includes attached and detached dwellings, including portions devoted to senior housing and "workforce" housing as well as live/work housing over commercial/office uses.	EIR	01/22/2007
2006041023	County of Los Angeles Fire Station 108 Los Angeles County Fire Department --Los Angeles The proposed project consists of the construction of a new two-story fire station that would service the local existing and anticipated needs of the growing community. The major elements of the proposed project and the potential construction scenario include 1.41 acres of a graded pad at 28799 North Rock Canyon Road in the unincorporated area of Santa Clarita, Los Angeles County. The two-story fire station would house office space and living quarters in approximately 3,571 square feet. The station garage would provide apparatus parking in approximately 1,251 square feet. The exterior of the structure would be designed like the adjacent existing tract houses (Tract 46908-08). Landscaping around the fire station would be consistent with the landscaping of the tract and would feature native drought tolerant species.	EIR	01/24/2007
2006041080	Vasquez Rocks Natural Area Park Interpretive Center Los Angeles County --Los Angeles The proposed project would consist of a single-story, 2,700-square foot interpretive center that would include a multipurpose exhibit room with interpretive displays, classroom, office space for staff, new restrooms, custodial room, and storage room. An entry plaza, would serve as the main entryway to the Interpretive Center connecting it to the parking lot. The Interpretive Center would be supported by septic tanks since municipal sewer service is not available at this location. A 30,000-square-foot surface parking lot, consisting of 43 parking spaces (35 visitor, 5 staff, and 3 handicap access) and a bus drop-off area accommodating two visitor buses would be included. The proposed project would include indigenous plants to be used as landscape screening and a low-flow irrigation system, which would help limit the use of potable water for landscape irrigation. Other components including the existing outdoor lecture benches, rescued animal enclosures, and storage and trash containers would be relocated on the proposed project site. Utility lines supporting the proposed project would be located underground. A water storage tank would also be located in the proposed project site for the fire suppression system.	EIR	01/24/2007

	and possible secondary use of the existing sewer force main.		
2006081124	West Fork Camp Restoration Project San Diego County --San Diego The County of San Diego is proposing to remove all structures and improvements from the West Fork Honor Camp and restore the property to its pre-development condition in compliance with U.S. Forest Service Special Use Permit #100404.	NOD	
2006082076	Laguna de Santa Rosa Protected Lands Trails Plan Sonoma County Santa Rosa--Sonoma The Trails Plan proposes a trail system along a portion of the Laguna de Santa Rosa. Pedestrian and mixed-use trails would be located on four properties owned by the City of Santa Rosa (Alpha, Brown, Kelly and Stone Farms) and one privately-owned property (Balletto Easement) for which the County of Sonoma has received irrevocable offers to dedicate trail easements. Other trail features proposed in the project include staging areas, interpretive signage and picnic areas.	NOD	
2006101089	Reservoir 3601-2 Coachella Valley Water District --Riverside The Reservoir 3601-2 project proposes the construction of a 1 million gallon water reservoir on the same 5-acre parcel of the existing 1 million gallon Reservoir 3601-1 that was constructed in 1965. The project includes shallow excavation to construct a concrete ring wall and all appurtenances necessary to connect the reservoir to the existing domestic water system on-site. The purpose of the Reservoir 3601-2 project is to provide additional water storage for increasing domestic water and fire protection demands within the Upper Improvement District 8 and Wide Canyon Pressure Zones, which include the areas around Sky Valley. This additional water storage reservoir will provide energy savings by alleviating the need to operate associated domestic water wells during peak electrical consumption periods. In addition, a second reservoir will allow removal of one reservoir from service for routine maintenance and repairs.	NOD	
2006102004	Issuance of a Post-Closure Permit for Former Surface Impoundments 250, 635, and 706, United Technologies Corporation, Pratt & Whitney Rocketdyne Toxic Substances Control, Department of San Jose--Santa Clara DTSC is has approved a Post-Closure Permit for three former surface impoundments. These surface impoundments were used for the storage of hazardous wastes at the facility and were closed in 1986. DTSC approved the closure certification report in 1991. All wastes from these impoundments were removed and disposed properly. Soils above the groundwater table were removed and replaced with clean fill. However, groundwater impacts still remain as a result of the operation of these units and therefore a Post-Closure Permit is required. The Permit will require the facility to continue to pump and treat the contaminated groundwater, monitor the groundwater, and to inspect and maintain the equipment used for these activities. A deed restriction is currently in place prohibiting the use of groundwater for agricultural purposes or human consumption. The deed restriction shall remain in place until standards set by the Regional Water Quality Control Board for drinking water have been achieved.	NOD

2006122036	<p>Use Permit Application No. 2006-36 - Fiscalini Cheese Co. Stanislaus County Modesto--Stanislaus</p> <p>Request to relocate and expand an existing farmstead cheese processing facility on a 38 acre parcel located on the northwest corner of Kiernan Avenue and Jackson Road, in the Modesto/Salida area (4648 Jackson Road). The new facility will consist of an 81,800 square foot building designed to provide a visitors center, processing and packaging rooms, and cheese storage. The existing on-site facility will be converted to agricultural storage for the on-site dairy operation.</p>	CON	12/27/2006
2003062101	<p>Highway 101 HOV Lane Widening and Improvements Project - Steele Lane to Windsor River Road Caltrans #4 Windsor, Santa Rosa--Sonoma</p> <p>The project extends along Highway 101 in Sonoma County between Steele Lane in Santa Rosa and the Windsor River Road in Windsor, a distance of 12.3 km (7.6 mi). The following improvements are proposed within the project limits: widening in the median to provide high occupancy vehicle (HOV) lanes in each direction; standard outside shoulders; auxiliary lanes to facilitate weaving traffic movements at the Hopper Avenue and Mendocino Avenue southbound on-ramps, and extension of auxiliary lanes from north of Steele Lane to Bicentennial Way; Fulton Road/Airport Boulevard interchange complex modifications; bridge widening at Mark West Creek, Pool Creek, and Pruitt Creek to accommodate the HOV widening; and on-ramp improvements to accommodate future ramp metering, provide California Highway Patrol enforcement areas, and provide for HOV preferential lanes where feasible.</p>	EIR	01/24/2007
2006051086	<p>Lifeguard Public Safety Services Building Coronado, City of Coronado--San Diego</p> <p>The proposed Lifeguard Services Building project involves construction and future operation of a 2,574-square-foot building on the public beach west of the intersection of Isabella Avenue and Ocean Boulevard. The building would house existing lifeguard equipment and vehicles, an office, and staff shower and locker spaces. The proposed Lifeguard Services Building will be located 70 feet northwest of the Central Beach Restroom and adjacent to the rock revetment that lines Ocean Boulevard. The Lifeguard Services Building would replace an existing 9-foot by 25-foot trailer parked next to the Beach Maintenance Facility. The existing trailer will be eliminated when the service building is completed. The Lifeguard Services Building will have an undulating "organic" exterior design with natural rock-faced curved walls on the perimeter covering a length (along Ocean Boulevard) of 68 feet 5 inches and a depth of 40 feet 8 inches, with a height of 11 feet 6 inches. The exterior building design would be similar in appearance to the existing restroom. This structure will have a flat sand colored roof and a rock façade on all sides.</p>	EIR	01/24/2007
2006102116	<p>Middle School and Future Elementary School at Range Road Pittsburg Unified School District Pittsburg--Contra Costa</p> <p>Development of a 1,256-student middle school on a 25.88 acre site, followed by a future 700-student elementary school on a currently vacant site in the central area of the City of Pittsburg.</p>	EIR	01/24/2007

<u>Documents Received on Monday, December 11, 2006</u>			
2005051055	West Ming Specific Plan Bakersfield, City of Bakersfield--Kern The proposed project includes the development of a new community with residential, commercial, recreational, schools, and light industrial uses. The project includes a maximum of 7,450 residential units, 478,880 square feet of commercial (including office, service, and retail), 331,200 square feet of town center commercial and mixed use (including office, service, and retail), 1,135,000 square feet of special uses (light industrial, mineral and petroleum, public facilities, open space, parks, public transportation, office, and other uses permitted by the Specific Plan). The proposed schools will be located within the residential neighborhoods of the project site.	FIN	
2006102086	Heller Drive Bike Lane Project University of California, Santa Cruz Santa Cruz--Santa Cruz The proposed project would construct Class II bike lanes along approximately 1 mile of Heller Drive, one of three primary access roads on the UC Santa Cruz campus. The improvements would consist of minor roadway widening, varying from 1 foot to 5 feet, removal and installation of curbs, guard rails and retaining walls, drainage improvements, and roadway striping and signage improvements.	FIN	
2006121036	General Plan Amendment No. 758, Change of Zone No. 6969, Plot Plan No. 19414 Riverside County Planning Department --Riverside General Plan Amendment proposes to amend the site's current general plan land use designation from Commercial Retail (CR) (0.20-0.35 floor area ratio) to Commercial Office (CO) (0.25-1.0 floor area ratio). Change of Zone proposes to change the site's current zoning classification from Light Agriculture - 5 acre minimum (A-1-5) to Scenic Highway Commercial (C-P-S). Plot Plan proposes to construct a 78,410 square foot three-story building for office and retail use with 304 parking spaces and 26,747 square feet of landscaping on 4.16 acres.	MND	01/09/2007
2006121039	San Bernardino Valley College Seismic Building Replacement Project San Bernardino Community College District San Bernardino--San Bernardino The project proposes to replace four existing buildings on the San Bernardino Valley College (SBVC) campus: North Hall, Physical Science, Chemistry, and Maintenance and Operations, comprising a total of approximately 95,200 assignable square feet. The buildings are proposed for replacement because of their proximity to the San Jacinto Fault Zone. The buildings would be replaced with four new buildings on other locations on the campus, with a total of approximately 95,700 assignable square feet. After construction of the replacement buildings, the existing buildings would be demolished. In addition, approximately 4.5 acres of new landscaping would be installed in the locations of the demolished buildings and around the new buildings.	MND	01/09/2007
2006122037	Powell Place San Pablo, City of San Pablo--Contra Costa Three-story mixed-use building with approximately 24 residential units above 8,000 square feet of commercial ground floor space and parking structure.	MND	01/09/2007

2006122041	Tract 1952 Shasta County Anderson--Shasta The request is for approval of a land division resulting in three 5-acre parcels and a 96.4 acre remainder parcel. This project is a partial division of the remainder parcel created by Parcel Map 9-96.	MND	01/09/2007
2006122043	Use Permit Amendment UP03-007A Shasta County --Shasta The request is to amend an existing use permit to allow a single-family dwelling in conjunction with the existing boat and recreational vehicle storage facility.	MND	01/09/2007
2003081022	Selma Wal-Mart SuperCenter Selma, City of Selma--Fresno The project includes the construction of approximately 400,000 square feet of commercial retail uses on an approximately 40-acre site. The primary user will be Wal-Mart, which will occupy approximately 225,000 square feet of floor area on an approximately 21-acre parcel in the central portion of the site. The remaining 19 acres will be developed with several commercial buildings of varying sizes located on 12 individual outlots along the project perimeter. Although the planned uses of the outlots have not yet been determined, for purposes of the EIR they are assumed to be a mixture of retail sales and service, and restaurant (sit-down and fast-food uses). It should be noted that the fuel station proposed in the original application is no longer proposed.	NOP	01/09/2007
2006121040	Ramona Gardens Hawthorne, City of Hawthorne--Los Angeles The project is the residential development with 136 single family homes, and associated landscaping and parking within an 8-acre site in the City of Hawthorne.	NOP	01/09/2007
2006121037	Conditional Use Permit 2005-102, Tentative Tract Map 2005-103, and General Plan Amendment/Zone Change 2006-039 Big Bear Lake, City of Big Bear Lake--San Bernardino The applicant proposes to develop 76 "market-rate" condominiums in 23 buildings on 7.2 acres and 12 "affordable" multiple-family residences in 4 buildings on 0.9 acre, for a total of 88 units on 8 acres. Other improvements include all drive aisles, parking spaces, and amenities including a gazebo and barbecue area. The project proposes to be constructed in four phases. A Tentative Tract Map application has been submitted to subdivide the property for condominium purposes. General Plan Amendment and Zone Change applications have been submitted to designate the 1.46-acre property located at 723-767 Paine Road (308-121-45) for Multiple Family Residential purposes, and a RM General Plan Land Use designation and R-3 zoning are requested. 2006122040	Zone Amendment 06-028 - Harvey Shasta County Shasta Lake--Shasta The applicants are involved in a property line dispute. Resolution has been reached by way of a court-ordered settlement. The settlement describes a property line adjustment by which one of the parcels will be reduced by 9/100 of an acre. The existing BSM zoning prohibits this reduction. The request is to amend the zoning from the existing R-R BSM F2 zone district to a new R-R BSM F2 zone district in order to facilitate the property line adjustment described in the settlement and resolve one aspect of the dispute. The project does not involve any development projects, nor will increased future development potential result from the project.	Neg	01/09/2007
2006122042	Zone Amendment 06-034 and Parcel Map 06-053 - Hess Shasta County Redding--Shasta The request is for a zone amendment from the Unclassified (U) zone district to the Rural Residential (R-R). The U district is applied as a holding district until a precise zone district has been determined for the property. Staff has performed a land capability analysis based on information submitted by the applicant and has determined that the R-R district is appropriate for this property. The applicant has also requested approval of a two parcel land division. The parcel map will be a redivision of Parcel #1 of Parcel Map 4-87. The resultant parcels are proposed to be 2.21 acres and 3.91 acres. The 3.91 acre parcel will contain an existing single family residence.	Neg	01/09/2007

	disposal tonnage limit from 825 to 1,200 tons of refuse per day, increase the maximum incoming refuse vehicle trip limit from 600 to 850 vehicles per day; and adjust and clarify use of heavy equipment in the existing SWFP from 7:00 am to 7:00 pm and 6:30 am to 7:00 pm.		
2006082010	Porter Creek Bridge Replacement Project Sonoma County Santa Rosa--Sonoma The proposed project would replace the Porter Creek Road Bridge over Porter Creek, located on Porter Creek Road near the intersection of Franz Valley Road, in the Mark West Springs area. The bridge is 158 feet long and 28 feet wide and has four spans across Porter Creek. The proposed replacement bridge is a two-span concrete box girder bridge that would be approximately 160-feet long with two twelve-foot travel lanes and a twelve foot wide center-turn lane, and two 10-foot wide shoulders. The traveled width of the bridge would be 56-feet. The bridge would be built in two stages with the first stage consisting of one-lane bridges built upstream and downstream of the existing bridge. The second stage would be to remove the existing bridge and build a fill-in bridge between the two one-lane bridges. In this way, uninterrupted two-way flow of traffic through the construction zone would be maintained.	NOD	
2006101055	Elkhorn Slough National Estuarine Research Reserve Land Management Plan Fish & Game #3 --Monterey The project is the Elkhorn Slough National Estuarine Research Reserve Land Management Plan 2007-2011 which provides a description of the Reserve, a general policy guide to the management of the property and long term stewardship and education goals. The Reserve provides habitat for Special Status species, game and other native species.	NOD	
2006101143	East Gate Installation University of California, Santa Barbara Goleta, Santa Barbara--Santa Barbara The East Gate Installation project is proposed approximately 250 feet northeast of the roundabout located at the intersection of Highway 217, Mesa Road and Lagoon Road. The project includes the construction of three wall sections ranging in height from eight to 18.9 feet. The approximate lengths of the three walls are 90 feet for the northern wall (radiused to the east), 12 feet for the center wall, and 30 feet for the southern wall (radiused to the west). Walls are to be clad in a sandstone veneer. The project includes the placement of a 2.5-foot high, 6-foot wide, approximately 80-foot long steel beam, clad in a bronze skin, placed on top of the three walls to span the roadway. The project is designed with a minimum of 16 feet clearance to allow adequate distance for large vehicles to pass under the structure.	NOD

Vertical drilling to extract four core samples, and horizontal drilling of a test well for well development for a proposed Aquifer Storage and Recovery Feasibility Study.	NOD	
2006119048	Amendments to: Regulation 9, Rule 9: Nitrogen Oxides from Stationary Gas Turbines Bay Area Air Quality Management District --Alameda, Contra Costa, Marin, Napa, San Francisco, ... Regulation 9, Rule 9 sets emission limits for nitrogen oxides (NOx) from stationary gas turbines in order to reduce ozone forming emissions to the atmosphere. The rule requires turbines to meet various emission limits depending on their size, fuel type, and amount of usage. Gas turbines are used to supply commercial electrical power, mechanical power, and steam used within various industries such as petroleum refineries. The proposed amendments will implement control measure SS-14 from the Bay Area 2005 Ozone Strategy. The proposed amendments: - Categorize turbines by heat input rating rather than megawatt output; - Set more stringent emission limits for some categories; - Provide for a new measure of compliance, pounds NOx per megawatt-hour; and - Provide up to 400 hours operating time per year before new limits go into effect. 2006128072	Wanderer Gravel Removal Project Fish & Game #2 --Yuba Wanderer Gravel Bar Removal project involves removal of approx. 75 cubic yards of gravel from Dry Creek to allow fish passage at 17869 Rainbow Lane, Challenge, CA, as described in Notification 1600-2006-0350-R2.	NOE	
2006128073	Phenology of Brassica tournefortii: A Basis for Invasion and Control of Sahara Mustard in California Deserts Coachella Valley Conservancy Unincorporated--Riverside Sahara mustard (Brassica tournefortii) is an exotic annual mustard that has recently expanded throughout southwestern US deserts. Field experiments to test the efficacy of different control regimes for Sahara mustard in field settings are needed. Because of the vast amounts of land already invaded by Sahara mustard, herbicide is perhaps the best option for large-scale effective control in desert ecosystems. Glyphosate is an excellent option because it is effective, widely available, and accepted for use on nearly all private and public lands. We propose to use Coachella Valley Mountains Conservancy lands in the Snow Creek area of the Coachella Valley in an experimental program to test the efficacy of glyphosate applied to Sahara mustard at different stages of development.	NOE	
2006128074	Danby Towers Short-term Inspections and Repairs Metropolitan Water District of Southern California Unincorporated--San Bernardino The Metropolitan proposes to excavate potholes adjacent to transmission tower legs for inspections and repairs. Excavated holes will be backfilled with cement/sand slurry.	NOE	
2006128075	Colorado River Aqueduct Conveyance Reliability Program - Dam Sluiceways and Outlets Rehabilitation Preliminary Design Metropolitan Water District of Southern California --San Bernardino The Metropolitan assessed the reliability of the dam sluiceways at Gene Wash and Copper Basin reservoirs, and the outlet facilities at Copper Basin reservoir. The slide gates at both reservoir sluiceways show signs of corrosion and need to be repaired and recoated. The valves, actuators, and electrical systems show signs of excessive wear due to age and use, and also require repair. Other recommended improvements include installation of a stationary two-ton crane, work platforms and stairwells at each dam to facilitate maintenance and to improve workplace safety. The Copper Basin reservoir outlet includes refurbishment of mechanical operators and guides; replacement of electrical transformers; upgrades of the communication links from the dam and outlet gates to Gene Camp; upgrades to personnel fall-prevention equipment; and upgrade of the control structure. In addition, rock cuts adjacent to the control structure have shown signs of erosion and instability, and slope stabilization is recommended to ensure uninterrupted access to the structure. Metropolitan proposes to prepare preliminary design of repairs and improvements.	NOE

2006128078	Box Springs Feeder Repairs - Phase I Design and Construction Metropolitan Water District of Southern California Riverside--Riverside The Metropolitan recently conducted electromagnetic inspections, which revealed sixteen 20-foot long pipe sections with anomalous readings as to the integrity of the prestressing wires. The extend of the damage, if any, at these locations could not be interpreted by the electromagnetic inspections due to the presence of internal steel bands within the pipeline. The internal bands were installed in 1989 in an attempt to repair "broken back" cracks, which were discovered during a routine inspection. The internal bands are no longer considered to be an effective means of permanent repair. In order to maintain reliable deliveries of source water to the Henry J. Mills Water Treatment Plant, all sixteen pipe sections should be removed and replaced with welded steel pipe sections. The recommended repairs will occur in phases in order to minimize the duration of pipeline shutdowns. Metropolitan is proposing the preparation of final design and construction of the Phase I repair of one segment of the pipeline located in the City of Riverside.	NOE	
2006128079	Sepulveda Pressure Control Structure Residence Roof Removal and Replacement Metropolitan Water District of Southern California Los Angeles, City of--Los Angeles Metropolitan is proposing to remove and replace existing roofing at the Sepulveda Pressure Control Structure Residence. The material will be contained using industry standards and will be removed from the site at the conclusion of the work.	NOE	
2006128080	Greg Avenue Pressure Control Structure Building Interior Upgrade Metropolitan Water District of Southern California Los Angeles, City of--Los Angeles Metropolitan is proposing to remove and replace existing floor tile inside the confines of the Greg Avenue Pressure Control Structure Building. The material will be contained using industry standards and will be removed from the site at the conclusion of the work.	NOE	
2006128081	Eagle Rock Towers Slide Gates Metropolitan Water District of Southern California Los Angeles, City of--Los Angeles The Metropolitan Water District of Southern California proposes to remove and replace three slide gates at the Eagle Rock Tower.	NOE

2005021136	Sycamore Creek Estates Specific Plan Vista, City of Vista--San Diego The project consists of a General Plan Amendment, Zone Change, new Specific Plan, Site Development Plan, and Tentative Subdivision Map to develop 59 single-family residential units and associated improvements on 13.4 acres.	EIR	01/25/2007
2006062112	Soscol Gateway Redevelopment Project Area and Specific General Plan, Zoning and Design Guidelines Policy Changes Napa, City of Napa--Napa The project involves the proposed adoption of a new 376-acre Soscol Gateway Redevelopment Project Area, and related General Plan, zoning and design guideline policy changes recommended by the Soscol Gateway Implementation Plan Recommendations report, endorsed by the City Council in February 2006. The project consists of the following primary components: (1) creation of a new Soscol Gateway Redevelopment Project Area; (2) amendments to the General Plan Land Use Elements; (3) amendments to the General Plan Transportation Element; (4) amendments to the City's "Soscol Corridor/downtown Riverfront Development & Design Guidelines" (Guidelines); and (5) amendments to the Zoning Code.	EIR	01/26/2007
2006122044	Starr Minor Subdivision, Coastal Development, Conditional Use and Special Permit Humboldt County Community Development Services --Humboldt A parcel map subdivision to divide an approximately 5.93 acre parcel into a 3.71 acre parcel and a 2.22 acre parcel. The parcel is currently developed with a single family residence and on-site wastewater treatment system. The subdivision will place all existing structures on proposed Parcel 1. A "150 Foot Fire Hazard Tree Removal" exemption is requested to allow the removal of no more than 100 second growth redwood trees. A Coastal Development Permit is required for the subdivision and the construction of an approximately 668 square foot single family residence above an approximately 576 square foot garage with associated wastewater treatment system for both parcels. A Special Permit is required for Design Review and a Lot Size Modification to allow the 2.22 acre parcel. Parcel 1 will continue to be served by community water and an on-site wastewater treatment system and Parcel 2 will be served by on-site water and an on-site wastewater treatment system. 2006121048	Attendance Boundary Realignment for Lytle Creek Development San Bernardino County, Superintendent of Schools Rialto--San Bernardino The proposed attendance boundary alignment involves a territory transfer between the Rialto and San Bernardino Unified School Districts. While both districts would exchange areas of territory, the realignment would result in a net gain of 98 yet to be developed homes for SBCUSD. As such, any school children residing in these homes would attend an elementary, middle and/or high school operated by the SBCUSD rather than a RUSD operated school. The intent of the realignment is to realign lot boundaries so that no residential lots within the development would be divided between districts. The new alignment would mostly follow city streets and is designed to allow the students of most neighboring homes to attend the same school district. The project does not include the acquisition of real property or the construction of any physical improvements.	Neg	01/11/2007

2006032115	Mandela Grand Mixed Use Development Project Oakland, City of Oakland--Alameda The Mandela Grand Mixed Use Project is an industrial village development that would redevelop and revitalize approximately 13.3 acres of underutilized industrial and commercial land in Oakland, CA. The project would demolish most of the existing buildings on the site (the American Steel Building and portions of the Pacific Pipe Building Complex) and construct eight new buildings. The project would adaptively reuse the 47,000-square-foot original timber-frame structure of the Pacific Pipe Building. The development would contain predominantly custom and light industrial uses with limited commercial uses on the ground and second floors of each of the buildings (approximately 300,702 square feet). High-density residential uses (1,577 units) would occur on building levels above the industrial and commercial uses. The proposed uses would include a two-story podium base that would accommodate custom/light industrial and commercial uses, and residential uses would be located on residential floors above the podium that range from four to nine stories. Additionally, three high-rise towers of 27 residential floors over the two-story podium (up to 300 feet tall above grade) would be constructed. The project would provide approximately 2,322 parking spaces - approximately 96% of the total in underground garages and three above-ground, three-story parking garages.	EIR	01/29/2007
2006041028	West Artesia Boulevard Commercial Highway Planning Area Specific Plan Bellflower, City of Bellflower--Los Angeles The conceptual site plan for the Specific Plan area would allow for a maximum of 306,720 sf of General Commercial uses to be constructed within Areas 2 and 3. The conceptual site plan includes the construction of two large commercial and retail stores at approximately 150,000 sq. ft. each. Specifically, Area 2 would include Major Pad A, which would allow for a 149,520 sq. ft. commercial and retail building and associated parking lot, as well as two smaller 3,600 sq. ft. commercial buildings. Approximately 1,022 parking spaces would be provided within the Specific Plan area for the proposed uses.	EIR	01/29/2007

2006122063	Removal of Invasive Non-native Plants and Revegetation with Native Plants on Two Ranches in the Napa Valley Napa County Resource Conservation District Yountville--Napa The purpose of this project is to restore native plant communities along Conn and Rector Creek, the Napa River, and unnamed waterways on two ranches in Napa Valley. A site survey and map of invasive non-native plants was completed for each site in July 2005 by Circuit Rider Productions. Native plant revegetation plans were also prepared for each site. As part of the project evaluation for this initial study, Rare Plant Surveys were completed in October 2006 by botanist Jake Ruygt, for both sites. The recommendations of this survey were incorporated into the project. A cultural resources investigation was completed in November 2006 by Roscoe and Associates Cultural Resources Consulting for both sides. The recommendations of this survey were incorporated into the project.	Neg	01/08/2007
